Prices are basically 2 fan (2 eye or crown) divisions. Only in very rare cases do we supply only one fan. This would be for a new, rare or one in short supply.

We do ship 'Bonus Plants' of our choosing for Mail Order.

We will be digging Daylilies weekly and shipping each week from late March through mid November. No minimum order!

Mother plants of Daylilies with multiple crowns are available, and priced similarly as Hostas. Inquire if interested in larger plants. We have been experimenting digging field grown, large B&B (balled & burlapped) Daylilies.

Not shown in this inventory, are our field grown plants of Hemerocallis. We currently have many field rows of proven hardy, mostly old-time favorites. These are available in large or small quantities, and available also at wholesale rates. We are a retail and wholesale Nursery and also sell many large Shade and Ornamental trees.

If you would like to order Hemerocallis from this list, please fill in the enclosed order form and return it to us by mail. Please enclose full payment for total order, plus packing and shipping charges with your order, which is \$9.00 for first plant and .50 for each additional plant. Minimum shipping charges are \$9.00. If we are unable to supply something on your order, we will substitute another suitable variety (if you have so indicated) or we will refund your money on the items we are unable to supply. Visa, Master Card or Discover charges are acceptable. We do not charge card until plants are shipped. We ship into Canada, England, Europe and Alaska.

PLANTING AND CARE
OF
HEMEROCALLIS - THE DAYLILIES

Daylilies are very easy to grow, and are the most rewarding, flowering, hardy perennial available for everyone's yard, garden or commercial landscape design.

WHO:

Every home can be a more delightful place to live when pleasant, beautiful flowers abound outside and flowers are cut and put in vases inside. Every lawn areas or building area, residential, commercial, office building, parks, playgrounds, any planting site, roadway, or riverbank should contain Daylilies.

Pleasant, beautiful flowers add a more romantic harmony to our busy life-styles. If the time is taken to add the pleasures of Daylilies into your life-style, our world would be even more pleasant to live in. Try them -- learn about them.....

WHERE TO PLANT:

Select a site with good drainage and at least one-half day sunshine. Daylilies will grow well in any soil but thrive well in loam with plenty of humus. The bloom scapes tend to face in the direction that the sun is coming from so place the plants to maximize the display of flowers. Scapes on different cultivars range from 9" to 4', so one should select the proper cultivar for the proper location.

WHEN TO PLANT:

Hemerocallis can be transplanted anytime from early Spring to Fall. One, two or three fan divisions can be dug almost anytime of year and transplanted. Container grown plants can be transported and easily transplanted at anytime (even in full bloom), with very little shock to the plant.

"Our Daylily Area - (DA)"

Our daylily area contains 6,000 plus potted Daylilies in #1 containers. Most are 2 to 10 eyes per pot, many have full pots of eyes, while others have 3-5 eyes per pot. Some recently divided containers only have 1-2 eyes.

These are exceptionally good buys as many can be immediately divided! Some varieties simply multiply faster than we can divide. On these, you will benefit greatly! We constantly try to maintain a 2 eye plus count per pot.

Our daylily area is located below our 'great scarlet and gray wall', just east of our pond and west of our office. Look for the large 'Daylilies' banner.

The daylilies are arranged in alphabetical order, and there are literally hundreds ready for sale.

Shopping carts are available to load up your plants at the office, after selecting your plants please go to office for your sales slip to be written up. You may stack, set aside, or have one of our sales staff bring them to the office for you to check out.

Remember, our daylilies are priced per pot. Not so for our Hostas, they are priced by the crown (1-2 crowns for the listed price, anything over 2 crowns will be charged for at a price per crown).

Steve Moldovan Garden

It now contains Steve Moldovan's and Roy Woodhall's - 2001, 2002, 2003, 2004, 2005, and 2006 collections. Some of Steve's other plants are in other various gardens.

Most of the daylilies in this garden are not in our base Daylily listing yet, as we wish to build inventory of crowns on them before offering them for sale. In 2006, the flowers were extra ordinary, very large and many excelled our fondest dreams.

Be sure to see them in bloom - you'll be surprised - many are so beautiful that it's hard to resist buying them. Some aren't priced yet, but its fun to see them anyway and plan for the future!

"The Siloams"

We have three (3) collections!

See them for yourself!

Collections #1 & #2 are in alphabetical order.

We have one of the largest collections of Siloams!
